HONORS & AWARDS

OBJECTIVE

As a passionate and creative Web Developer, I aim to join a dynamic and innovative company in the technology sector. With expertise in technologies such as ReactJS, Next.js, and Spring frameworks, I am eager to continuously learn new tools, enhance my work performance, and contribute to the sustainable growth of the business. I seek opportunities to collaborate with talented experts in a diverse environment and drive continuous innovation through cutting-edge solutions.

EDUCATION

🎓 **Information Technology**   // **August 2021** - **Present**

Ha Noi University of Industry

- Currently in the fourth year of study.
- GPA: 3.54
- Expected to graduate in Jun 2025.

WORK EXPERIENCE

💼 **LOWLAND COFFEE SHOP WEBSITE**   // **March 2024** - **Present**

Developed an E-commerce and Management Website for LowLand Coffee Shop.

GitHub Repository: https://github.com/quanndb/LowLand
Team size: 3
Technologies: ReactJS, Redux Toolkit, Material UI, TanStack Query, Spring Framework, MySQL, MongoDB, Docker.
Key Features:
- Authentication & Authorization: Secured user login using JWT, supporting email/password, and Google OAuth.
- Product & Order Management: Comprehensive CRUD operations for products, orders, blogs, and comments with real-time updates using TanStack Query.
- Payment Integration: Integrated PayOS gateway for secure and reliable payment processing.
- Role-based Access Control: Differentiated access for admins, employees, and customers, including product inventory management, sales reporting, and order tracking.
- Blog & Comment System: Users can post blogs and interact through blogs or comments.
- Responsive UI: Modern user interface built with Material UI, optimized for both desktop and mobile views.

💼 **PERSONAL PORTFOLIO WEBSITE**   // **September 2024** - **Present**

Developed a responsive portfolio website featuring project showcases and experience in modern web development.

GitHub Repository: https://github.com/quanndb/portfolio
Demo website: https://quanndb.netlify.app
Team size: 1 (Personal Project)
Technologies used: NextJS, Tailwind CSS, Aceternity UI
Key features:
- Responsive Design: Optimized for various devices to ensure a seamless UX

May 2024: Full scholarship for semester 5 (GPA: 3.95/4.0)

- Project Showcases: Highlights key projects with descriptions and visual elements.
- Interactive Contact Form: Allows visitors to easily get in touch, with input validation for better user experience.
